To: MSL Commission
From: Karen Strege
Re: Long Range Plan

Attached you will find the final draft of the agency's long-range plan. As you may remember, MSL posted the plan for comments in February. We received comments from three individuals.

However, during the comment period, managers reviewed the draft and suggested changes, especially in the target outcome and output measures sections. Therefore, I ask you to review the draft in detail again.

Although many eyes have reviewed the draft, I am sure that errors remain. When you notice errors, please mark them on your copy. The agenda of the April meeting allows 30 minutes for discussion draft's content; but, of course, this time can be expanded as needed.

Thank for your past help with developing this plan. I look forward to our discussion in April.
