

## MLIAC Policy Work Group Charge

June 23, 2014

The Montana Land Information Advisory Council Policy Work Group is charged with evaluating, drafting and supporting policies that are within the scope of the Council and the Montana State Library to enforce and that support the common values of the Council.

MLIAC values:

- 1) Data that is derived as close to the recognized, authoritative source as possible  
*(Policies could include the necessity for data sharing agreements, grant prioritization for data development, proper data crediting, etc.)*
- 2) Data that is discoverable and accessible in formats for both GIS and non-GIS practitioners  
*(Policies could include metadata requirements and a requirement that all data be published to the data list)*
- 3) *Other?*
