# Montana State Library Digital Library Work Plan October 2018

Green (no font distinction) – activity progressing as expected. Yellow (italicized) – activity may be delayed but the delays do not necessarily rise to the level of Commission concern Red (bolded) – activity is delayed and Commission attention is warranted <u>Blue (underlined)</u> – addition or change to the original work plan.

### **Strategic Framework – Foster Partnerships**

#### **Activities:**

• Implement a Digital Depository Library model for Montana State Publications

Inputs	Outputs	Outcomes	Impacts
Staff time to update existing	Updated Montana State	A set of tools (in the Management Plan	Citizens across the state have more
policy and create new	Publications Management Plan	and Administrative Rules) that have been	awareness of, and access to

		NLS	better service at a lower cost. This
			is critical if we hope to grow our
			patron base with a limited budget.

• Update the Montana Cadastral Application

Inputs	Outputs	Outcomes	Impacts
Info Products, Land Info, and IT Staff time	A more robust cadastral application that we can maintain with existing, in	A reduction in the number of recurring complaints and bug reports	As one of the most used applications in Montana state government, the cadastral
Input from the Department of Revenue and users	house staff and update as needed without a full re- write	An increased ability to be responsive to user suggestions for improving the application	application Is a natural opportunity for us to reach out to and engage users. The first step in doing this is ensuring that the application itself is well designed and reliable.

Upcoming projects or potential projects:

- Data Model and Standards Development for <u>MSDI themes</u>
  - Necessary, but long-term project. Should identify 1-2 themes to focus on in the current fiscal year.
  - We will seek guidance from MLIAC on how to proceed with this work.
  - o October 2018 This will be addressed in the upcoming FY2020 Montana Land Information Plan
- GPS Base Station Network
  - MSL participated in a planning meeting with the MDT director and several members of the Surveying community.
  - The GIS Coordinator is developing a business plan for this project.
- Collection Development Policy
  - Addition of the Talking Book collection development policy and updates to reflect the removal of the reading room, reductions to our print collection and expansion of our digital collection.
