Montana Memory Project: Metadata Guidelines

Element Name	Title
Dublin Core Definition	A name given to the resource.
Is Field Required?	Required
Is Field Repeatable?	No
How to Use?	Title may also be an identifying phrase or name of the object supplied by the contributing institution. Take the title from digitized item when possible. Metadata creator may supply a title if none exists and does not need to put this supplied title in brackets.
Examples	Progressive Men of Montana The Sun Also Rises Main Street, Three Forks, Montana Looking West Unknown man on horseback with dog
Refines/Refinement	Refinement: alternative
Schemes	None
Dublin Core Mapping	dcterms: title
MARC Mapping	245 subfields a and b

Element Name	Alternative Title
Dublin Core Definition	An alternative name for the resource.
Is Field Required?	Optional
Is Field Repeatable?	Yes
How to Use?	Possible sources for alternative titles include spine, inverted title, cover, etc.
Examples	Title=R. L. Polk & Co.'s Kalispell city directory Alternative Title=Polk's Kalispell city directory Alternative Title=Kalispell Polk city directory

Element Name	Description
Dublin Core Definition	An account of the resource.
Is Field Required?	Required
Is Field Repeatable?	Yes
How to Use?	Anything significant about the digital resource not covered elsewhere. Use standard punctuation and grammar to describe the item's history, physical appearance, contents, abstract, etc. <i>Repeat title if nothing else fits.</i> For text or handwritten objects that have full-text searchable transcriptions associated with them, provide the full-text in a local field called Transcription . (See transcription).
Examples	Illustrated guide to airport markings and lighting signals, with particular reference to SMGCS (Surface Movement Guidance and Control System) for airports with low visibility conditions. Portrait of infant girl, wearing dress, hands in lap, seated in chair. Probably Mary Bell, half-sister of William S. Bell.

Montana Memory Project: Metadata Guidelines

Element Name	Creator
Dublin Core Definition	An entity primarily responsible for making the resource.
Is Field Required?	Required , if applicable
Is Field Repeatable?	Yes
How to Use?	Person or entity responsible for creating the intellectual content of the resource. Prefer form of name as verified in the Library of Congress Name Authority File (LCNAF) http://authorities.loc.gov/. If name is not listed there, give name in the following format: Last name, First name, Middle name or Middle initial (if available), year of birth and/or death if known, separated by a hyphen. Nicknames or popular culture names are not inverted, if you have questions check LCNAF. Separate multiple entries within this field by inserting a semicolon and a space. For further help in formatting names not found in LCNAF, consult a cataloging resource such as the <i>Anglo-American Cataloguing Rules</i> (AACR2), <i>Resource Description and Access</i> (RDA), or <i>Describing Archives: A Content Standard</i> (DACS).
Examples	Examples of creators include authors of written documents, artists, photographers, collectors of natural specimens or artifacts, organizations that generate archival collections, etc. Shakespeare, William, 1564-1616 Bridger Canyon Planning and Zoning Commission Russell, Charles M. *One of two genre fields is required.

- Select at least one term from the Genre (Short List) list of terms.
- Use the Genre (AAT) field if you want to include more, specific terms for the items in your collection.

Element Name	Genre (Short List)
Dublin Core Definition	Describes the type of item
Is Field Required?	Required*
Is Field Repeatable?	Yes
How to Use?	Describe the nature of the original object (what it <i>is</i> , not what it is <i>about</i>) expressed in genre terms from a controlled vocabulary. An item described with the genre term " <i>photographs</i> " is an actual photograph, not a book <i>about</i> photographs.
Examples	art books brochures diaries documents letters maps newspapers pamphlets photographs postcards sound recordings yearbooks

MARC Mapping	655 #7 subfield a (Index Term--Genre/Form) plus subfield 2=aat (for Art & Architecture Thesaurus)

Element Name	Genre (AAT)
Dublin Core Definition	Describes the type of item
Is Field Required?	Optional*
Is Field Repeatable?	Yes
How to Use?	Describe the nature of the original object (what it <i>is</i>, not what it is <i>about</i>) expressed in genre terms from a controlled vocabulary. An item described with the genre term "<i>photographs</i>" is an actual photograph, not a book <i>about</i> photographs. Use this field if you wish to be more specific about what the item is, than the Genre (Short List) allows.

Montana Memory Project: Metadata Guidelines

Element Name	Type
Dublin Core Definition	The nature or genre of the resource.
Is Field Required?	Required
Is Field Repeatable?	Yes
How to Use?	Must have at least one type field containing appropriate type(s) from DCMI Type vocabulary. - For images, refine with a second term, either StillImage or MovingImage (i.e., use Image; StillImage or Image; MovingImage). Note that both words in the second term are capitalized. - If a resource is an image of text (such as a scan of a printed article), use the term Text. - If the resource consists of more than one type (e.g., an interview with sound and text files), use multiple type terms as needed to describe, separating them with a semicolon and a space (e.g., Sound; Text). For more information about DCMI Type vocabulary see: http://dublincore.org/documents/2000/07/11/dcmi-type-vocabulary/ To describe the nature or genre of the original object, use the required local element genre.

Element Name	Language
Dublin Core Definition	A language of the resource
Is Field Required?	Optional
Is Field Repeatable?	Yes
How to Use?	Use ISO 639-3 three letter codes. For multiple languages, use separate language fields or list all in a single field, separating each with a semicolon and a space. More detail about the languages may be included in the Description element. Example: In German and English in parallel columns.
Examples	English=eng Hutterite German=geh Crow=cro English and Crow=eng; cro

*One of two date fields is required, or both may be used.

- If the date is *known* and can be entered without text to describe the date use the Date Original field. This field is mapped to the Data type - date and makes the item searchable by the date.
- If the date is *unknown* or the date needs further explanation use the Date (unknown or estimated) field. This field is mapped to the Data type - text and the item will not be searchable by the date.

Element Name	Date Original
Dublin Core Definition	Date of creation of the original object.
Is Field Required?	Required*
Is Field Repeatable?	No
How to Use?	A resource may have several dates associated with it. The date covered by this table refers to creation of the <i>original</i> resource, that is, when the resource was first created, before undergoing any conversion. • The date must be entered in this format for the item to be searchable by date YYYY or YYYY-MM or YYYY-MM-DD or YYYY-YYYY • Do not include any letters or characters other than the hyphen in this field. • For resources created in a non-digital format and converted to digital format, use the date the non-digital resource was first created -- e.g., for print books, use the publication date of the print book. • For resources that have always been in digital format and never converted, use the date the digital resource was created -- e.g., PDF document uploaded as a PDF document. • For resources that were first created in one digital format, then converted to another digital format -- e.g., audio file recorded in WAV format, then converted to MP3 format -- use creation date of the first digital format -- e.g., WAV.

*One of four Subject fields is required.

- One of the three Subject Thesaurus formats is preferred.
- More than one Subject field may be used.
- Use the Subject (Keyword) field only if a specific keyword is not listed in a thesaurus and is important to searching for the item. Keywords or phrases with local significance may apply.
- Separate multiple entries within this field by inserting a semicolon and a space.

Element Name	Subject (TGM)
Dublin Core Definition	The topic of the resource.
Is Field Required?	Required*
Is Field Repeatable?	Yes
How to Use?	Describe what the resource content is <i>about</i> , expressed in Thesaurus for Graphic Materials (TGM). Use the list built into Contentdm or look up keywords or phrases on this website: http://id.loc.gov/vocabulary/graphicMaterials.html
Examples	Nineteen seventies Newspapers Miners

Element Name	Rights Management
Dublin Core Definition	Information about rights held in and over the resource.
Is Field Required?	Required
Is Field Repeatable?	Yes
How to Use?	Typically, a <i>Rights Management</i> element will contain a rights management statement for the resource, or reference a service providing such information. Rights information often encompasses intellectual property rights (IPR), copyright, and various property rights.

Element Name	Contributors
Dublin Core Definition	An entity responsible for making contributions to the resource.
Is Field Required?	Optional
Is Field Repeatable?	Yes
How to Use?	Use for other people or entities who contributed to making the intellectual content of the resource, but who are not covered in the creator field. Examples include illustrators, editors, translators, etc. When possible, refine the contributor name by including the role the person or entity played in contributing to the resource. Prefer form of name as verified in the Library of Congress Name Authority File (LCNAF). If name is not listed there, give name in the following format: Last name, First name, Middle name or Middle initial (if available) year of birth and/or death if known, separated by a hyphen. Add a comma and space, then the role of the person or entity in this work. Separate multiple entries within this field by inserting a semicolon and a space. For further help in formatting names not found in LCNAF, consult a cataloging resource such as the <i>Anglo-American Cataloguing Rules</i> (AACR2), <i>Resource Description and Access</i> (RDA), or <i>Describing Archives: A Content Standard</i> (DACS). When adding a role, use a role term from MARC Relator Codes list and use the spelled-out role rather than the code. Example: author of screenplay not the code aus.
Examples	Dickens, Charles, 1812-1870, author; <i>Davies, Andrew W., 1936-, author of screenplay;</i> <i>Cameron, Julia Margaret, 1815-1879, photographer;</i>

Element Name	Contributing Institution
Dublin Core Definition	An entity responsible for making the resource available.
Is Field Required?	Required
Is Field Repeatable?	Yes
How to Use?	Name of the entity that created or is providing access to the resource. If the resource existed in another form prior to being digitized, provide information about that previous publisher in the <i>publisher</i> field and give the creation date for the original in the <i>date</i> field. A publisher may include a person, organization, or a service. Separate multiple entries within this field by inserting a semicolon and a space between each two entries. Prefer LCNAF if applicable. If not available use the same form of your institution's name consistently.

Montana Memory Project: Metadata Guidelines

Element Name	Geographic Coverage
Dublin Core Definition	The place or geographic region this resource covers or is about.
Is Field Required?	Required if known
Is Field Repeatable?	Yes
How to Use?	Use to state the place or area that is described or represented by the resource, not the place where the resource was published. May name a place or specify geographic coordinates. A jurisdiction may be a named administrative entity or a geographic place to which the resource applies.
Examples	United States Montana Teton County (Mont.) Billings, (Mont.)
Refines/Refinement	Refines <i>Coverage</i>
Schemes	Use of a scheme is strongly recommended. Some possibilities: - Library of Congress Subject Headings (LCSH) http://id.loc.gov/authorities/subjects.html - Thesaurus of Geographic Names (TGN) http://www.getty.edu/research/conducting_research/vocabularies/tgn/ - U.S. Geological Survey [USGS] http://geonames.usgs.gov/ Prefer LCSH for place names when available.
Dublin Core Mapping	Dcterms: <i>coverage-spatial</i>
MARC Mapping	651 #0 (for LCSH place names) or #7 with the specific vocabulary source provided in subfield 2 (TGN, for example)

Element Name	Time Period Represented
Dublin Core Definition	The time period this resource covers.
Is Field Required?	Optional
Is Field Repeatable?	Yes
How to Use?	Use to describe the time period covered or represented by the resource, not the date when the resource was published. Temporal topic may be a named period, date, or date range. If using a named period, use a controlled vocabulary if possible such as Library of Congress Subjects (LCSH). Where appropriate, time periods can be used in preference to numeric identifiers such as date ranges.
Examples	Twentieth Century 1920-1925 Prohibition Dustbowl Era, 1931-1939 New Deal, 1933-1939

Element Name	Physical Collection
Dublin Core Definition	A related resource in which the described resource is physically included.
Is Field Required?	Optional
Is Field Repeatable?	Yes
How to Use?	Used to state the physical collection to which this resource belongs. This may include the call number or local identifier, so the physical items can be located if requested.
Examples	Digital Collection=Military Enlistments (Montana), 1890-1918 Physical Collection=Montana Adjutant General's Office Records, 1889-1959 (RS 223). Digital Collection=[President Taft visits Montana] – one photo Physical Collection=N.A. Forsyth Stereograph Collection (ST 001). Digital Collection=Letter inquiring if Jas D. Dublin Core Mapping	Dcterms: relation-isPartOf
MARC Mapping	none

Montana Memory Project: Metadata Guidelines

Element Name	Digital Format
Dublin Core Definition	The file format of the resource.
Is Field Required?	Required
Is Field Repeatable?	Yes
How to Use?	Describe the file format of the resource using the Internet Media Type (IMT) scheme. Use of the scheme will imply the software needed to display or operate the resource. New media types and applications are always emerging. If the resource format being described is not yet part of the MIME type list, follow the MIME convention by selecting a broad category of object format (audio, video, application, etc.) for the first part of the MIME type. For the second half of the MIME type, use the file extension that is usually attached to files of this format. See the defined list at: http://www.iana.org/assignments/media-types
Examples	audio/mp4 image/jp2 application/pdf Some digital objects may involve more than one format. For example, an oral history interview may consist of both an audio file (audio/mp4) and text transcription (application/pdf). In these cases, list both formats: audio/mp4; application/pdf

Element Name	Digitization Specifications
Dublin Core Definition	Describes the process, equipment and specifications used to convert the resource into its present format
Is Field Required?	Required , if applicable
Is Field Repeatable?	Yes
How to Use?	This field is needed if resource originally existed in a different format and has been converted. Use the <i>Digitization Specifications</i> element to record technical information about the digitization of the resource: the hardware, software, and processes used to create the digitized resource. Include such information as scanner model, scan resolution, color profiles, compression schemes, size of <i>master</i> file (sometimes referred to as archival file), etc. This element is primarily intended for use at the local level.
Examples	Digitization Specifications=A photographic print was scanned on an Epson Perfection 4990 Flatbed Scanner as a 3000 pixel TIFF image in 8-bit grayscale, resized to 640 pixels in the longest dimension and compressed into JPEG format using Photoshop 6.0. Title	Our Historic Homes 1895-1989
Creator	Richland County Extension Homemakers Council
Contributor	Tarnavsky, Carol, Extension Home Economist; Daniels, Laura; Wick, Viola; Sundheim, Audry; Sawyer, Marie; Gartner, Kathryn; Aisenbrey, Luanna;
Subject (TGM)	Historic buildings; Houses
Description	The Richland County Extension Homemakers Council is proud to present this book of Historical Homes as our Montana and North Dakota Centennial Project. We are grateful to all who participated with such enthusiasm: the researchers, artist, photographers, typists, and technicians also the office staffs of the Richland County Extension Service, Elk River Printing and the staff and directors at the MonDak Heritage Center. It has been an absorbing, interesting and fun endeavor for the committee as well as a good area geography and history lesson. We have accepted information graciously offered without questioning authenticity and hope that everyone will enjoy reading the book as much as we have enjoyed putting it together.
