Hello,

I understand that our work plan will be entered into public record via the State Library Commission. When creating a presentation recently using some of the TEAMS data, I realized that there was an error in my calculations on the p. 1 table.

I've attached an updated, corrected document. The changes are on p. 1 and p. 11, and based on the total number of schools in MT (819), rather than the number of school librarian positions (607-617).

If this is acceptable to you all, and the document has not yet been entered into public record, can we submit this version?

Thank you,

Ann
