

Memo

To: State Library Commission Members
From: Karen Strege
Date: 12/19/2007
Re: Department Evaluations

In this mailing, you will find a brief evaluation of the Talking Book Library's (TBL) progress in meeting the objectives in its long-range plan. This information was collected during a half-day meeting with TBL staff members. This mailing also includes an evaluation of the steps the Library Development Department (LDD) took in meeting their objectives. LDD staff members met for two days in October to review the plan and their activities.

To remind you, Dr. Mary Bushing is currently studying the Library and Information Services Department and will present her findings to you at your February meeting. I will give an update of this evaluation at your December meeting. We plan to use similar methodology to evaluate the NRIS program.

Also included in the mailing are the recommendations of the PEEL Grant Advisory Committee.
