## What Does Resource Sharing Look Like?

Another splendid resource is WLN Lasercat. WLN stands for Western Library Network and includes an interlibrary loan program. Lasercat comes out either online or on CD's as a quarterly subscription. Schools can receive the three disks they would need during the school year. Schools can also receive one disk per year for a cheaper price. To run Lasercat you would need a computer and three CD-ROM players. Lasercat is helpful when students need more sources than the school library provides. Books can be borrowed from all over the northwest.
