

MEMO

To: Montana Geospatial Information Advisory Council
From: Erin Fashoway, State GIS Coordinator
Subject: Montana Spatial Data Infrastructure Updates
Date: 5/15/2025

We continue to make progress towards achieving our strategic goal of Improving Geospatial Data Value. Four MSDI Themes have convened working groups and completed their respective data quality improvement matrices: Cadastral, Elevation, Hydrography, & Mapping Control.

Please click on the link below for pre-recorded updates “lightning talk” style for the Council from the respective MSDI Theme Leads.
